GIRA ROCKER COMPATIBILITY

Old generation

New generation

The adapter for the Gira 55 switch series (part. no. 103091A2) is compatible with the old generation rocker.

Use requires a Homematic IP actuator for brand switches.

TECHNICAL SPECIFICATIONS

Installation	Only with a Homematic IP actuator for brand switches
Degree of protection	IP20
Ambient temperature	-5 to +40°C
Dimensions	55 x 51 x 21 mm
Weight	12 g

SIMPLE INTEGRATION

The Homematic IP Adapter Gira New Generation enables you to integrate your Homematic IP system simply and conveniently into numerous design lines from Gira.

As an intelligent solution for your switch system, the adapter can be attached to a Homematic IP Switch Actuator for brand switches (HmIP-BSM), for example, in just a few steps.

SAVE COSTS THE SMART WAY

Adapters for different switches enable switches from popular manufacturers to be replaced cost effectively with an intelligent Homematic IP installation. The design, colour and finish of already installed switches remain the same since existing frames and rockers can continue to be used.

COMPATIBILITY

A separate list on the adapter's compatibility with standard switch series can be found in the website download area at www.homematic-ip.com.

LOGISTICS DATA

Version	1 piece	Pack of 20
Product reference	161438A2	161438A1
