# From Top to Bottom, Every Detail is There

---

Even a tiny package on the ground is easily captured by the DB1 thanks to its 180-degree vertical field of view and 3-Megapixel video quality.

# Answer the Door from Anywhere

---

The DB1 initiates a video call via the EZVIZ App when someone rings the bell, so you will never miss a visitor.

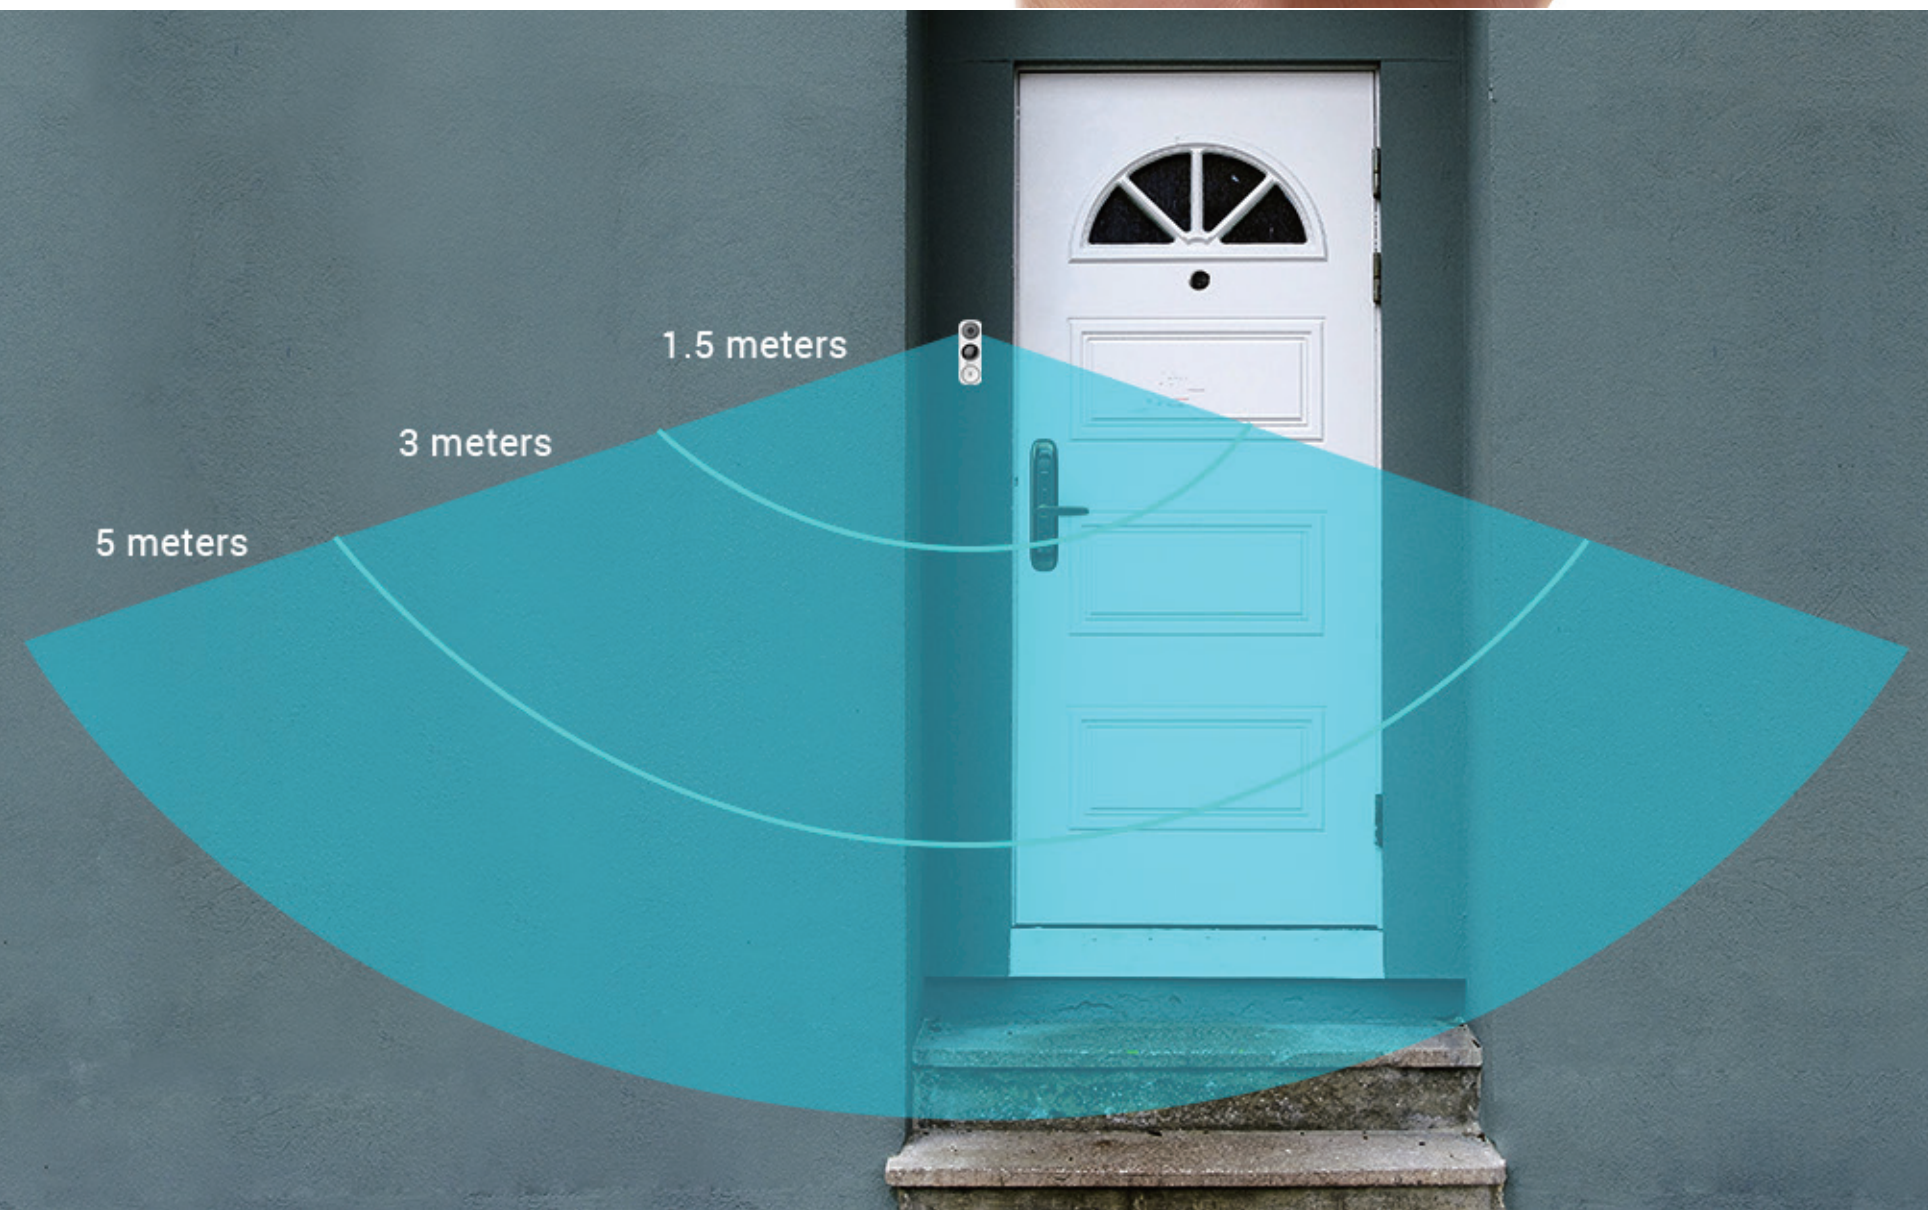

# Two-Way Talk Secures Your Home

See and speak with the person and hear what's happening outside your door anywhere and at any time using your smartphone.

# Lets You Know You've Got a Visitor

Using passive infrared (PIR) motion detection, when a visitor approaches, the DB1 sends you an instant alert. The DB1 also lets you customize the detection area, so you'll only get instant alerts from the area you would like to focus on.
