Approvals	IP40
Weather-proof	No
Weight	100 g
EAN	4260423868687

CURRENT SYSTEM REQUIREMENTS	
Supported door stations	D21x series with maximum one additional input device module

OPTIONAL ACCESSORIES	
Sold separately	see www.doorbird.com/buy

The Multi-Tenant Module for the D21x IP Video Door Station enables the connection of up to 56 DoorBird call buttons.

Contrary to the MTM14E and MTM18A, the power supply is not provided centrally via the Door Station but via a separate connector using 12 - 48 V DC. The multi-tenant module comes with a plug-in power supply (110 - 240 V AC to 15 V DC) with 4 country adapters, as well as an alternative Power over Ethernet (PoE) splitter (PoE to 12 V DC, max 1.5 A), in case a second unused network cable with PoE is available at the installation site.
