<b>Multilanguage support:</b>	Yes
<b>Text to speech:</b>	Yes
<b>Included users<sup>2</sup>:</b>	2
<b>Product #</b>	bOS-5

<sup>2</sup> **Users** are people using bOS. Individual users have their own credentials to login, receive messages (SMS, email, push notification) about the smart building and can have their own visualization theme. Examples:

- Family house with 4 family members - if each family member would like to receive messages regarding the system, they'll need 4 users.
- Apartment building – each apartment unit requires 1 user.
